

Aloe's Rich History

Aloe vera, a species of succulent plant, has enjoyed a glorious history as an herbal medicine beginning as far back as 1,500 BC and it's often referred to as "Nature's Pharmacy." Legend has it Aloe vera was Cleopatra's beauty secret and the Bible made mention of Christ's body being wrapped in myrrh and Aloe following his crucifixion. It's also mentioned in over a dozen other passages. The journals of Marco Polo speak of its magical powers and it's documented that even Columbus made mention of the healing nature of this amazing plant. Legend even has it that Aristotle persuaded Alexander the Great to capture the island of Socotra for its rich supply of the plant so he could be sure to heal his wounded soldiers. And, when asked how he maintained his strength during long fasts, Gandhi credited the amazing Aloe vera plant. And, here at Symmetry there's been a long legacy of including Aloe vera in our products like Genesis™ and Ultra Vitality™.

Symmetry's AceAloe+, the ultimate Acemannan

The key ingredient in our AceAloe+ is Acemannan, a healing substance found inside the inner leaf gel of the plant. Our certified organic farming methods produce not only the best Aloe in the world, but verifiably the highest concentration of Acemannan in the world as well, up to 10-times greater than leading brands, and **just two capsules of AceAloe+ is equal to or superior to a full bottle of the leading Aloe drinks!**

I have suffered from IBS (Irritable Bowel Syndrome) my entire life. The older I got the worse it became until my dietary choices were severely limited. After taking AceAloe+ for only a week, I was able to expand my diet to eat things I haven't eaten in years. The longer I take AceAloe+, the broader my diet becomes. If I start to have twinges of discomfort, I simply double my intake for a day and my stomach mellows out again. In addition, my migraine headaches have decreased about 60% in both intensity and frequency. I'm loving my AceAloe+.

AceAloe+

The Ultimate Acemannan

Balance your immune system & support your body's defenses, naturally

SYMMETRY

Balance your immune system and support your body's defenses, naturally

It's common for our bodies to be out of balance and strained from physical and emotional stress, poor food quality, bad eating habits, and environmental toxins. That's why we created **Ace Aloe+**, containing as much as 10-times the active ingredient, **Acemannan**, found in many leading Aloe products and an all-natural tri-phasic formula to support your defenses and balance your immune system naturally.

Not only is the Acemannan content in AceAloe+ up to 10 times greater than our competitors, just two capsules of AceAloe+ is equal to or superior to a full bottle of the leading Aloe drinks on the market!

Stress on our bodies leads to a compromised immune system and adrenal glands, in turn leaving our bodies susceptible to attack. Signs of immune system distress may appear as minor

aches and pains or things like migraines, digestive problems, inflammation, skin problems, problems associated with aging, or even major health concerns. Western medicine encourages the use of expensive pharmaceuticals that commonly treat only the symptoms of these problems. But drugs don't address the root cause; they only mask the symptoms and create a multitude of additional problems due to their varying side effects.

Stop this cycle with **Symmetry's Ace Aloe+**, containing as much as 10-times the active ingredient, **Acemannan**, found in leading Aloe products as well as an all-natural tri-phasic formula that delivers no side effects. Plus it comes with a 100% money-back guarantee.

Only **AceAloe+** uses a *unique, triple-phase* approach to deliver unmatched immune balancing power

Unique Triple-Blend Formula

AceAloe+ employs a triple-blend formula and cascading tri-phasic approach, to deliver unmatched capacity to modulate and balance the immune system. Every component in each of our three groups of ingredients works synergistically to produce outstanding results not obtainable by any single ingredient alone.

Phase 1—The Ultimate Acemannan Supplement

AceAloe+ contains the highest concentration of Acemannan, the active ingredient in the Aloe vera plant, on the market today. **And, just two capsules of AceAloe+ is equal to a full bottle of other Aloe drinks!**

Phase 2—Body Balancing Adaptogens

Adaptogens, or rejuvenating herbs, have been used for centuries by herbalists. The adaptogens used in our **AceAloe+** formula are health promoting herbs that help balance the body holistically, protect it from everyday stress, support its adrenal glands, reinforce the immune system and help the body maintain optimal homeostasis.

Adaptogen Blend:

- Ashwagandha root extract
- Triphala: standardized extract of Amla fruit, Belleric myrobalan fruit and Chebulic myrobalan fruit
- Tribulus

Phase 3—Beneficial Dietary Fiber (FOS)

Fructooligosaccharide or FOS is considered a dietary fiber that's been revered worldwide for many years because of its amazingly beneficial prebiotic effects and unique effect of feeding the "friendly bacteria" in the GI (gastrointestinal tract) keeping the digestive system operating at peak efficiency in turn allowing the immune system to function at peak efficiency as well.
